Our firm advises companies and individuals in investment projects and business development within the major sectors of the Uruguayan economy.

Investing in Uruguay

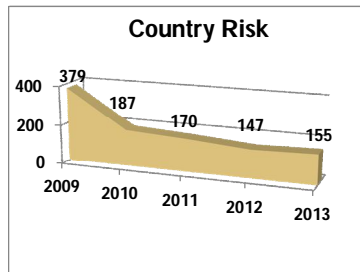

Uruguay is a country of 3.3 million inhabitants and 176,000 km² strategically located between Argentina and Brazil.

It has a strong economy with a favourable business climate and political and social stability.

Its trade openness and tax regimes that promote investment make Uruguay an eligible country as a regional hub for companies that come to settle in South America.

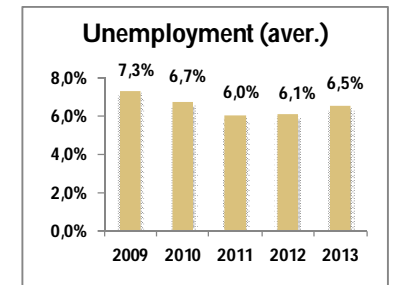

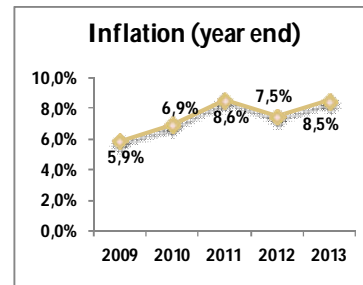

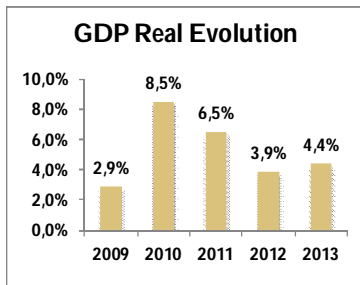

International Rankings	South America	World
Democracy (The Economist Intelligence Unit 2011)	1	17
